SEGURO AVENTURA — ENGLISH

PURPOSE

Seguro Aventura is intended to provide protection to participants in tourism activities and adventure sports and experiences, contributing to awareness and prevention of risks associated with their participation.

With the growing popularity of activities involving nature, an increasing number of people seek these experiences and, eventually, accidents or incidents may occur during their participation.

The insurance provides, in accordance with the contracted benefits, conditions, limits and exclusions established in the applicable policy, for the payment of compensation to the insured person or their beneficiaries when a covered event occurs.

Coverage is valid throughout Brazil, subject to the conditions, limits, exclusions and other provisions established in the applicable policy.

Important: Mar Aberto and Mar Social act as platforms for the intermediation and provision of experiences and information to users. They are not insurance companies, do not assume the insured risk and are not responsible for the analysis, adjustment or payment of any insurance claims or benefits.

The insurance contracting process, risk acceptance, claims assessment and any payment of compensation are the responsibility of the insurance company, subject to the terms and conditions of the applicable policy.

The insurance does not replace any legal, technical or safety obligations applicable to the performance of the activities.

The existence of insurance coverage also does not transfer to Mar Aberto or Mar Social any responsibilities that belong to the respective service provider or operator regarding the performance of the activity, operation of the tour or compliance with applicable safety requirements.
